The relief will be abolished completely by the end of 2017.

INCOME TAX

Patent Royalty Income Exemption

As announced in the National Recovery Plan 2011-2014, the tax exemption for income received by an individual or company from a qualifying patent is abolished as is the tax exemption for distributions made by companies from exempt patent income. In line with established practice, abolition takes effect from the launch of the Plan on 24 November 2010.

With the abolition of the exemption from tax for patent royalties, withholding tax will now have to be deducted from all patent royalty payments as required under section 238 TCA except those covered by the EU Interest and Royalties Directive, certain payments of royalties to companies resident in tax treaty countries as provided for in section 242A TCA and those patent royalties covered by the administrative practice referred to in Revenue's Statement of Practice SP-CT/01/10.

The scheme (section 479 TCA 1997) that provides for a single lifetime income tax deduction of up to €6,350 for an employee who purchases shares in his or her employer company, where those shares are retained for a period of three years without being sold is terminated where shares are subscribed for on or after 8 December 2010.

Approved Share Option Scheme

Tax relief in respect of share options, granted and/or exercised on or after 24 November 2010 (date of publication of National Recovery Plan) under Approved Share Option Schemes has been terminated, including schemes that have already been approved by Revenue. Such share options are now to be treated in the same manner as unapproved share option schemes.

Approved SAYE Share Option Schemes

ANY gain on options that are granted and/or exercised under SAYE Approved Share Option Schemes on or after 1 January 2011 will continue to be exempt from income tax but will be subject to PRSI and the new Universal Social Charge.

Ex-gratia payments made on or after 1 January 2011 will be subject to a maximum exemption limit of €200,000 taking into consideration any prior tax-free payments (including SCSB deductions) which have been received.

Tax relief for energy efficiency measures

Relief will be given up to a maximum of €10,000 at standard rate for expenditure to make homes more energy efficient. Credit will be given in 2012.

Property Incentive Changes

Section 23 Relief

Changes to the relief for rented residential accommodation (section 23 type relief) are as follows:

- Relief restricted to set-off only against income from the section 23 property
- Any unused relief carried forward beyond 10 year period will be lost
- Where property is sold within the 10 year period, the purchaser will get no tax relief
- Owner-occupier relief is unaffected by these measures
- Where section 23 properties remain unsold as of 30 June 2011, the 10 year period will commence on that day, shortening the period over which relief may be claimed.

Accelerated Capital Allowances

Restrictions are being placed on the amount, and the use of accelerated capital allowances available under the various area and property based tax incentive schemes. The restrictions are as follows:

- Accelerated allowances given under either Case I or Case V of Schedule D in any year, or carried forward into that year, may only be set off against income from the property which gave rise to the allowance. No sideways setting off of these allowances against income from any other property or any other income will be allowed. These measures apply to passive investors only.
- Where capital allowances were given over a seven or 10-year period, any unused allowances carried forward beyond those respective periods will be lost. This measure applies both where the periods have already ended as well as to those where the periods have yet to end.
- Capital allowances given at the standard rate of 4% per annum over 25 years are unaffected by these measures and these changes apply to passive investors only.
- Where capital allowances are given over a period greater than 10 years, this period is now being revised downwards to seven years from the year the allowance was first claimed. Where this seven-year period has already elapsed, any capital allowances which have yet to be given as well as those carried forward to the current year will be lost.

Where the seven-year period has not elapsed, the aggregate of capital allowances not yet given at that time will be reduced by 20% and given over the balance of the seven-year period. In all cases, any capital allowances carried forward beyond the end of the seven-year period will be lost.

Capital allowances given at the standard rate of 4% per annum over 25 years are unaffected by these measures and these changes apply to passive investors only.

PENSIONS

Employee PRSI on pension contributions

From 1 January 2011, employee contributions to occupational pension schemes and other pension arrangements will no longer be exempt from employee PRSI. Such contributions will also be subject to the Universal Social Charge which comes into effect on 1 January 2011.

Employer PRSI on pension contributions

Employer contributions to occupational pension schemes and other pension arrangements are exempt from employer PRSI which would otherwise apply at a rate of 10.75%. The extent of this relief will be reduced by 50% from 1 January 2011.

Contribution limit

The annual earnings limit which (along with age-related percentage limits) determine maximum tax-relievable

contributions for pension purposes is being reduced from €150,000 to €115,000 for 2011. The annual earnings limit for 2010 will also be deemed to be €115,000 for the purpose of determining how much of a pension contribution paid by an individual in 2011 will be treated as paid in 2010, where the individual elects under existing rules to have it so treated.

Maximum allowable pension funds

The Standard Fund Threshold (SFT) is to be set at €2.3 million as on and from 7 December 2010.

A higher threshold may apply if, on 7 December 2010, the capital value of an individual's pension rights drawn down on or after 7 December 2005 (i.e. crystallised pension rights) when added to any uncrystallised pension rights the individual may have, as valued on 7 December 2010, are greater than €2.3 million and lower than €5,418,085 which is the current value of the SFT.

Approved Retirement Funds

The annual imputed distribution in an Approved Retirement Fund (ARF) at 31 December each year is being increased from 3% to 5% in respect of asset values at 31 December 2010 and future years.

Retirement lump sums

With effect from 1 January 2011, the overall life-time limit on the amount of tax-free retirement lump sums that an individual can draw down from pension arrangements is being reduced to €200,000. The excess of retirement lump sum payments over €200,000 will be taxed at the standard income tax rate (currently 20%) up to an amount equal to 25% of the new Standard Fund Threshold (up to €575,000). The excess of retirement lump sum payments over that amount will be taxed at the taxpayer's marginal rate of income tax. Tax free retirement lump sums taken on or after 7 December 2005 will count towards "using up" the new tax-free amount and towards determining how much of a lump sum is to be charged at the standard or marginal tax rate.

Interest relief (section 248 relief)

Tax relief in respect of interest paid on loans taken out to purchase an interest in, or make a loan to a company are abolished for loans taken out after 7 December 2010. Relief for interest paid on existing loans is being phased out over a four year period so that only 75% of the interest paid in 2011, 50% of interest paid in 2012 and 25% of interest paid in 2013 will qualify for relief. For tax years 2014 and subsequent years, the relief will be abolished.

Restriction of Artists' Exemption

The scheme of income tax exemption, which currently applies to the earnings of artists, is being restricted.

For years up to and including 2010, there was no limit on the amount of income on which exemption could be claimed, although the 'high earners' restriction introduced in 2007 and extended in 2010 may limit the amount of an artist's exemption, in cases where gross income reaches €125,000 per annum.

Section 195 TCA is now being amended to limit, for the tax year 2011 and subsequent tax years, the amount of the exempt income to €40,000 per claimant (i.e. per artist) per annum.

RELEVANT CONTRACTS TAX (RCT)

As announced in the Budget Revenue are streamlining and modernising the RCT system. The new system will involve replacement of the current RCT rate of 35% with a two- rate withholding system. This system will involve

- a 20% rate for subcontractors registered for tax with an established compliance record,
- a 35% rate for subcontractors who do not qualify for the 20% rate e.g. not registered for tax.
- The abolition of the monthly repayment system and replacement with an offset system, and
- a move to an e-based system for RCT Principals which will enhance efficiencies within the system.

CORPORATION TAX

3 Year Tax Exemption for Start-up Companies

The 3 year corporate and capital exemption scheme for start-up companies, introduced in 2009 and extended in 2010 has now been further extended to new start-up companies in 2011. However, the scheme is being modified from 2011 so that the value of the relief will be linked to the amount of employers' PRSI paid by a company in an accounting period subject to a maximum of €5,000 per employee. If the amount of qualifying employers' PRSI is lower than the reduction in corporation tax liability otherwise applicable, relief will be based on the lower amount.

Tax exemption for payment to the National Co-operative Farm Relief Services Limited
